Hurry, like a cyclone, whirls you along at a rate that quickly exhausts your energy, and leaves you a nerveless, wretched, broken-down physical wreck.

Worry accomplishes the same results in another way. It drags you through the dark, gloomy tunnel of forbodings, wrecks your nerves and breaks down the constitution.

Then don't hurry; don't worry. But you will; and your nerveless, exhausted condition brings headaches, neuraigia, heart, stomach, liver and kidney troubles. The thing to do is: Strengthen the nerves with Dr. Miles' Nervine.

"Six months I was bedfast with nervous prestration. I had sinking spells, a cold, clamy feeling, couldn't stand the slightest noise. At times I would almost fly to pieces; stomach very weak. My husband insisted on my taking Dr. Miles' Nervine, and I began to improve before I had finished the first bottle, and to-day I am enutrely oured."
